Here are our most pressing needs and most promising opportunities.

NEEDS:

- **Revitalization of Educational Programs**

- **Permanent Collection Management**

Our permanent collection houses over 15,000 items evidencing the history and geology of the Napa Valley. It has been partially catalogued, but additional work is needed to update and digitize our database.

- **Restoration of Museum Staff Levels & Upgrade Computer Systems.**

Full-time staff of is now at 4; part-time is at 3 plus contractors as needed. While existing staff perform multiple jobs, key expertise is needed to restart essential programs, support original exhibitions, and otherwise manage the site. Current computers and systems are very outdated.

OPPORTUNITIES:

This will allow us to expand our educational and entertainment offerings including concerts and film festivals while also functioning as a revenue-producing venue for public and private gatherings.
